ARO series

El agua es el elemento central de esta serie inspirada en la ceremonia del té japonés. De ahí, las profundas formas cóncavas de los diferentes elementos de la colección ARO, que recuerdan a los boles de porcelana utilizados en este rito. Bajo esta premisa, estudi{H}ac redefine una tradición ancestral con un diseño moderno al que da forma un material tan innovador como el compacto mineral KRION® a base de líneas sutiles, naturales y limpias, concretadas en figuras semicirculares de tacto cálido.

Una franja plana en forma de aro enmarca los diferentes elementos, recordando las manos de quien ofrece el té al invitado, de igual forma que el baño ofrece el agua para uso íntimo y personal.

A água é o elemento central desta série inspirada na cerimónia japonesa do chá. Por isso possui as profundas formas côncavas dos diversos elementos da coleção ARO, que recordam as chávenas de porcelana utilizadas neste rito. Com esta premissa, estudi{H}ac redefine uma tradição ancestral com um design moderno ao que dá forma um material tão inovador como o compacto mineral KRION® à base de linhas sutis, naturais e limpas, concretizadas em figuras semicirculares de tato cálido.

Uma faixa plana em forma de aro emoldura os diversos elementos, recordando as mãos de quem oferece o chá ao convidado, de igual forma que o banho oferece a água para uso íntimo e pessoal.

L'eau est l'élément central de cette série inspirée de la cérémonie du thé japonais. D'où les profondes formes concaves des différents éléments de la collection ARO, qui rappellent les bols en porcelaine utilisés à l'occasion de ce rite. C'est dans cet esprit que estudi{H}ac revisite une tradition ancestrale avec un design moderne auquel donne vie un matériau aussi innovant que le minéral compact KRION® sur la base de lignes subtiles, naturelles et pures s'exprimant sous forme de figures semi-circulaires agréables au toucher.

Une bande plate en forme d'anneau entoure les différents éléments, évoquant les mains de celui qui offre le thé à l'invité, tout comme la salle de bain offre l'eau pour un usage intime et personnel.

MODUL series

Nueva serie de baño MODUL, basada en el plano y de línea minimalista. Casi aséptica, pretende ser aparte de una seductora propuesta estética, una controversia para los sentidos. Una fusión económica, estética y práctica. La pieza principal realizada en KRION®, la estructura metálica, la cuál confiere la rigidez necesaria al conjunto. Esta solución técnica y formal permite conseguir una sensación aérea, muy atractiva por su ligereza visual.
